2. INTRODUCTION

Judicial discretion is the cornerstone of sentencing in Missouri courts. The Sentencing Advisory Commission believes that sentencing in Missouri is at its best when the decision makers have accurate and timely information about the offender, the offenses and the options available for sentencing.

Senate Bill 5, which was enacted June 27, 2003, made changes to the statute that created the Missouri Sentencing Advisory Commission (Section 558.019.6 RSMo). The statute requires the commission to review and publish a system of recommended sentences on or before July 1, 2004. The statute also directs the commission to consider the feasibility of incorporating alternative sentences, prison work programs, work release, home-based incarceration and probation and parole options into the recommended sentences. The full text of Section 558.019.6 RSMo is included here as Appendix A, page 62.

The goal of these Sentencing Recommendations, which are consistent with Senate Bill 5 and the other statutes on sentencing, is to achieve a system of sentencing that is fair, protects the public and uses corrections resources wisely. One goal of the Sentencing Advisory Commission is to reduce sentencing disparity. However, achieving that goal has often proven to be elusive because disparities in sentencing often are the result of differences between offenders and in the circumstances of their crimes.

The commission builds upon the work of the previous commission whose Advisory Sentencing Guidelines were promulgated in 1998. The commission has examined data and studies of the use and deviations from those guidelines.¹

The new Sentencing Recommendations are based upon current sentencing and corrections practices in the state as a whole. They provide:

1. **Risk assessment.** The recommendations use a modified version of the salient risk factors used by the Missouri Board of Probation and Parole to determine eligibility for release on parole. These risk factors have been validated by statistical studies of Missouri offenders.
2. **Grouping of offenses.** The recommendations arrange the offenses in groups in the same manner as the offenses are categorized by statute and by the Board of Probation and Parole.
3. **Severity of offenses.** Within each group of offenses, the crimes are arranged in categories of severity from Level I, most severe, to Level III, least severe. Severity of offenses was determined by examining the actual sentences imposed for each crime in the recent five-year period. The intention of the severity level is to ensure that offenses within the same felony class and offense group can be given similar sentences.

¹ The commission decided to abandon the use of the phrase "sentencing guidelines" because the same phrase is used in the federal courts to describe a system that is entirely different from the sentencing system in Missouri courts. The commission labels its work as Sentencing Recommendations because that is what they are. They are not compulsory. The Missouri Sentencing Advisory Commission does not support a federal style guidelines system.

4. **Sentencing recommendations.** These are based upon data on sentences from throughout the state. The data on sentences for the prior fiscal year are included for each category of offense.

Following a proposal by the Missouri Department of Corrections and the Board of Probation and Parole, the system of providing pre-sentence information to courts and attorneys will be modified as follows:

The probation officer is to provide the attorneys and the court a Sentencing Assessment Report within 14 days following a plea. The Sentencing Assessment Report will contain basic information on the offender and the offense, as well as the impact on the victim, and will provide the court and counsel with:

1. A rating as to the risk of re-offending, by using the salient risk factors as set forth in these Sentencing Recommendations;
2. An analysis of non-prison sentencing alternatives (where appropriate);
3. A recommendation for sentencing in accordance with these Sentencing Recommendations, and
4. Where a prison sentence is indicated, the Report will indicate what percentage of the sentence must be served before the offender is eligible for parole, as well as the average number of months that an offender with that sentence and risk rating spends in prison before parole.

The commission thanks the Missouri Department of Corrections and the Board of Probation and Parole for their willingness to integrate these recommendations into their work.

The commission is aware that, in many cases, the sentence is the result of a plea bargain. The information in the pages that follow will be useful in determining appropriate dispositions in plea-bargained cases. Counsel and courts should be aware that, although a plea bargain is done before entry of a plea and preparation of a Sentencing Assessment Report, a probation officer or prison official would prepare a report in any event. This will help guide probation officers in supervising those on probation or other community-based sentences or prison officials who will be responsible for finding the proper placement for those sentenced to prison.

The commission supports the use of drug courts and other diversionary programs for appropriate non-violent offenders. Drug Courts have been found to be more effective and efficient than either incarceration or probation without a treatment component in dealing with individuals whose criminal behavior is primarily the result of illegal drug abuse (*A Cost-Benefit Analysis of the St Louis City Adult Felony Drug Court*, Institute of Applied Research, 2004; *Multi-Jurisdictional Enhancement for Missouri Drug Courts*, University of Missouri-Columbia School of Social Work, 2001). Although not a focus of this study, we note that there are 70 operational drug court programs in Missouri; 2,100 active drug court participants; 3,200 drug court graduates; a 60% retention rate for individuals in drug court; a 10% recidivism rate for individuals who have graduated from drug court; and 144 drug free babies that have been born to drug court participants.

The Sentencing Recommendations modify the terminology of probation to reflect different kinds of sentences. "Probation", in its traditional usage, means anything from minimal supervision to intensive supervision, electronic monitoring, or various other alternatives. These recommendations use the following terms to describe these different kinds of non-prison sentences:

Probation: Supervision in the community with periodic contact with a probation officer.

Community Structured Sentence (CSS): This is a non-prison sentence that is served in the community under a plan of strict supervision. It may include home-based incarceration (electronic monitoring) or other strategies for community supervision and may also require the offender to attend substance abuse or other community rehabilitative programs.

Institutional Shock or Treatment Programs (Shk/Trt): These include a variety of options under the shock probation statute, Section 559.115 RSMo, or other institution-based programs, as listed in section 4, Recommended Sentence References.

The commission, in Section 558.019.6 RSMo, has a one-year period to implement its recommendations. The commission hopes that judges and attorneys will find these recommendations, and system changes, to be useful. Comments and suggestions are welcome so that the commission and the Department of Corrections can consider changes that seem desirable in light of experience in using these Recommendations.

3. COMMISSION FINDINGS AND PROPOSALS

The commission, after discussion and a review of research and statistical material, has concluded that there appears to be general support for the use of recommended sentences and in the use of alternative sentences. There is evidence, however, that the system of recommended sentences is not widely used. This observation was one of the findings from a study by Professors Robinson and Aruguete of Lincoln University in 2002 (*Attitudes Toward and the Use of Sentencing Guidelines Among Missouri Circuit Court Judges*). The Office of the State Courts Administrator and the Department of Corrections supported the study and the study is available from the Department of Corrections website <http://www.doc.missouri.gov/>.

The commission considers that a major reason for the lack of reference to the recommended sentences is the difficulty judges have in easily interpreting the sentencing users' manual. The court records may not include the computation of the prior criminal history level and there may not have been a determination of whether there were mitigating or aggravating circumstances surrounding the offense. The selection of an alternative sentence is made more difficult than it need be because the sentencing matrix uses abbreviations to describe the recommended alternative sentences. Finally, not all alternative sentences are available to all court circuits (Section 7, page 41). The following proposals are provided to allow easier use of recommended sentences and alternative sentences:

Proposal 1

The Missouri Department of Corrections and the Board of Probation and Parole will provide the courts with a timely, focused sentencing assessment that will include the calculation of the recommended sentence. A court may decline or waive the assessment if it considers that the delay in sentencing will be burdensome.

The sentencing assessment will summarize the offender's criminal history, provide a risk assessment, identify the victim impact and develop an offender management plan. It will determine the recommended sentence and the available alternative sentences. If the recommended sentence is a prison term, the report will include the guideline parole eligibility, expressed as a percent of sentence and the average number of months to be served. The report turnaround is tentatively scheduled for 14 days (Section 8, page 43). The assessment will be more concise than the pre-sentence report that it will replace.

Proposal 2

The system of recommended sentences will use an expanded offender risk assessment that includes prior criminal history and other offender characteristics and will use an offense severity grouping to reflect the public concern over different types of crime.

The commission has also concluded that the system of recommended sentences should be improved to address concerns of many judges that the recommended sentences provide insufficient information on offender risk and in the offense severity (Robinson and Aruguete study, page 16). A statistical analysis of Missouri sentencing by the Department of Corrections has indicated that, for some offenses, the recommended prison

sentences did not reflect typical prison sentences handed down by Missouri courts. The commission wishes to continue to make the recommended sentences reflect current sentencing practice (Appendix D, Page 67). The sentencing data compiled by the Department of Corrections from its offender management database has been used to determine the recommended sentencing dispositions.

Proposal 3

The sentencing assessment will be provided to the courts when re-sentencing probation violators.

The system of recommended sentences is based upon the analysis of the first sentencing decision following a conviction or finding of guilt for a felony offense. The system is intended for reference before sentencing. However, because of the value of an improved offender risk assessment, the commission considers that the sentencing assessment and recommended sentence could also be used when a probationer is before the court for a possible revocation and/or re-sentencing. The Board of Probation and Parole has agreed to provide the sentencing assessment form for probation violators. A finding of the sentencing disparity study is that there is a difference in sentencing between the metropolitan areas and other counties. One explanation for this difference is a lack of local alternative sentencing options in all areas of the state but a wider application of the recommended sentences should also help to reduce the disparity. Guidance on the use of the recommended sentences for probation violators will be developed during the implementation phase.

Proposal 4.

The sentencing assessment will include a community risk assessment of sex offenders using tested and validated methods.

The commission is supportive of the advantages of conducting a risk assessment of sex offenders in the community without the need for a referral to an institutional assessment unit. The Department of Probation and Parole will develop its current sex offender risk assessment tools during the implementation period.

Proposal 5

During implementation phase the commission will continue to study fines, court costs and other charges placed upon offenders after a finding of guilt.

The commission has discussed the advantages and disadvantages of proposing that the legislature review the fine schedule. The fine schedule was last changed in 1977. Increasing the level of fines would provide additional resources for the state and may, as an alternative sanction, result in fewer offenders receiving jail or prison terms. However, with the increase in court costs in recent years and other charges and restitution that offenders are required to pay on a finding of guilty, the commission is concerned about the effects of an increased financial burden upon offenders who do not have the ability to pay.

Proposal 6

During implementation, the commission will continue to study how to require offenders revoked from probation with outstanding restitution and the ability to pay, to continue restitution after release to parole.

The commission has discussed the inequality upon victims who are awarded restitution as a condition of probation but who are later denied the restitution because the offender was revoked to prison, thereby canceling the probation. Although the commission is supportive of enforcing restitution when the offer to pay restitution results in an offender receiving a mitigating sentence, the commission is concerned with the increased financial burden upon offenders on prison release.

The commission has undertaken statistical studies of sentencing disparity and death penalty sentencing. These studies, required by statute 558.019.6 RSMo, are included as Sections 9 and 10 respectively.

4. A NEW SYSTEM OF RECOMMENDED SENTENCES

4.1. The Offender Risk Assessment

A new system of recommended sentences will use the 1998 matrix approach to determining the recommended sentence based upon offender risk (prior criminal history in the 1998 matrix) and on offense severity (felony class and offense grouping). The offender risk assessment will be based upon the risk assessment used by the Missouri Board of Probation and Parole.

The assessment will include an expanded number of measures of criminal and supervision behavior, a substance abuse score from an administered test and additional scores for educational attainment, vocational skills and employment status at the time of the offense. Because age is a significant factor in recidivism, the age of the offender is part of the risk score. There will be five levels of offender risk compared to four in the 1998 prior history level. The variables and scaling of the risk score are included in Appendix B, page 64.

The risk assessment will be undertaken as part of the sentence assessment prepared by a probation and parole officer. The risk assessment scale has been validated by a recidivism study of offenders serving prison sentences by the Department of Corrections. The proposed offender risk assessment will also be validated by a new recidivism study undertaken by the Department of Corrections during the implementation phase.

4.2 Offense Severity

Offense severity is based upon the felony class, the type of offense and level of severity. The commission has placed offenses into one of five groups: violent, sex and child abuse, drugs, driving while intoxicated (DWI), or other non-violent offenses. An analysis of sentencing disposition in fiscal year 2003 found that offenses within the same group and felony class were much more likely to receive similar sentences than offenses in other groups. For example, 84.5% of class A violent offenses received a prison sentence while only 25.2% of class A drug offenses received a prison sentence. There was also a difference in the sentence length for those offenders who were sentenced to prison (19.5 years for class A violent offenses compared to 13.1 years for class A drug offenses). The definition of the five offense groups using the National Crime Information Center (NCIC) coding and the Missouri charge codes is included in Appendix C, page 66.

When offenses were aggregated by offense group and felony class, however, the statistical analysis showed that there was still variation in sentencing within the groups. The commission has decided, therefore, to divide each offense group and felony class into three levels of offense severity. The calculation of the severity level was based upon a statistical calculation using the mean and standard deviation for each offense group. The standard deviation is a measure of dispersion around the arithmetic mean of the offense group.

Offenses that have a significantly higher average prison sentence (one standard deviation) or a higher percent prison disposition than the averages for the group are placed in level I

and those offenses that have significantly lower averages are placed in level III. Not all offense groups need three levels of offense severity. The statistical calculations are shown in the offense severity listing for each offense group in the recommended sentences. The statistical calculations were based upon analysis of all new sentencing from 1999 to 2003.

4.3 Aggravating and Mitigating Offense Circumstances

In the 1998 system of recommended sentences, the aggravating and mitigating circumstances apply to all offenses. In the new system that the commission is proposing, aggravating and mitigating circumstances are specific to each offense group. The aggravating and mitigating circumstances are concerned with issues of victim impact and with offender willingness to make restitution or to address rectification of criminally related behavior, such as substance abuse treatment. An avoidance of criminal behavior is no longer a mitigating factor because crime-free living is measured in the offender risk assessment. The Commission was supportive of making an extensive criminal history an aggravating condition because the risk assessment includes only two prior convictions and one prior incarceration. However, offenders with two or more felony convictions can be sentenced as a prior and persistent offender (section 558.016 RSMo.). The validation of the new risk scale will test for extending the prior conviction range.

4.4 Recommended Sentences

The 1998 sentencing matrix showed a sentence range together with the recommended alternative sentences. The new system of recommended sentences gives only the recommended sentence, without a range. If the recommended sentence is not a prison sentence but probation, enhanced probation using community structured sentencing or an institutional shock or treatment program, then the recommended sentence is the alternative sentence. The construction of the recommended sentences reflects the pattern of sentencing in fiscal year 2003 from the data in the Department of Corrections offender database. The analysis included all felony convictions by offenders under the supervision or incarceration by the Department of Corrections. The fiscal year 2003 sentencing averages are shown above each matrix of the recommended sentences for comparison purposes. The sentencing averages refer to the first sentence. Re-sentences of offenders who had a sentence revoked while under supervision were excluded from the analysis.

5. RECOMMENDED SENTENCE REFERENCES

- 5.1 The following references are made to statutes that define either the sentence disposition, the range within which an authorized sentence can be set or the incarceration time. The Revised Missouri Statutes are available online at <http://www.moga.state.mo.us/homestat.asp>. Reference can also be made to the Missouri Board of Probation and Parole booklet on Procedures Governing the Granting of Paroles and Conditional Release, <http://www.doc.missouri.gov/pdf/Blue%20book.pdf>.
- 5.2 Authorized dispositions for felony convictions include a term of imprisonment, a fine (if the offense is a class C or D felony, Section 560.111 RSMo.) and a period of probation. In addition, the execution of the sentence may be suspended and the person placed on probation or the imposition of the sentence may be suspended, with or without placing the person on probation (Section 557.011 RSMo.).
- 5.3 The Missouri statutes have provisions for enhanced sentencing, when an offender is deemed to be a prior and persistent recidivist, and for a minimum prison time when the offender is deemed to be a recidivist or has been convicted of a dangerous felony. Unless specifically excluded by statute, felony convictions can be sentenced to either probation or to a prison sentence (559.012 RSMo.). In Missouri, a probation term is often accompanied with a suspended prison sentence. When probation is revoked, the prison sentence can be imposed or the offender can be sentenced under the 120-day statutes.
- 5.4 Recidivists
An offender sentenced as a recidivist to an enhanced sentence (Section 558.016 RSMo.) is excluded from the sentencing recommendations.
- 5.5 Attempt or Conspiracy to Commit an Offense
Offenders convicted of the attempt or conspiracy are sentenced in accordance with Sections 564.011 and 564.016 RSMo. The sentencing recommendations include sentences at one felony class lower than the commitment of the offense.
- 5.6 Sentencing Statutes
Section 558.011 RSMo. Authorized terms of imprisonment including conditional release
- | | |
|----------------|------------------------|
| Felony Class A | 10 to 30 years or life |
| Felony Class B | 5 to 15 years |
| Felony Class C | Not to exceed 7 years |
| Felony Class D | Not to exceed 4 years |

The probation term for a felony conviction is from one to five years (Section 559.016 RSMo.).

In cases of class C and D felonies, the court shall have discretion to imprison for a special term not to exceed one year in the county jail or other authorized penal institution. If the

court imposes a sentence of imprisonment for a term longer than one year upon a person convicted of a class C or D felony, it shall commit the person to the custody of the Department of Corrections for a term of years not less than two years and not exceeding the maximum authorized term.

Section 558.016 RSMo. Extended Terms for Persistent Offenders (guilty of two or more felonies at different times) and dangerous offenders (guilty of a prior Class A or B felony and knowingly murdered or endangered the life or inflicted serious physical injury on another person)

Class A felony: any authorized sentence for a Class A felony

Class B felony: any sentence authorized for a Class A felony

Class C felony: any sentence authorized for a Class B felony

Class D felony: any sentence authorized for a Class C felony

Section 558.019 RSMo. Minimum Prison Terms for persons with prior prison commitments by the department of corrections {excluding regimented discipline (Section 217.378 RSMo.), 120-day programs (Section 559.115 RSMo.) or the long-term drug program (Section 217.362 RSMo.)} and serving a sentence other than in Chapter 195 RSMo. (drug offenses).

One prior commitment 40% of sentence (or until the age of 70 with 30% of the sentence served).

Two prior commitments 50% of sentence (or until the age of 70 with 40% of the sentence served).

Three or prior commitments 80% of sentence (or until the age of 70 with 40% of the sentence served).

Guilty of a dangerous felony 85% of sentence

In addition, there are enhanced sentences and minimum prison terms for persistent and predatory sexual offenders (Section 558.018 RSMo.), prior and persistent domestic violence offenders (Section 565.063 RSMo.) and prior and persistent drug offenders (Sections 195.285 to 195.296 RSMo.).

5.7 Parole Restrictions

Armed Criminal Action (Section 571.015 RSMo.). For the first conviction, the minimum period is three years; for a second conviction, the minimum period is five years and for the third conviction, the minimum period is ten years.

Pharmacy Robbery in the first degree (Section 569.025 RSMo.) The minimum period is ten years.

Pharmacy Robbery in the second degree (Section 569.035 RSMo.) The minimum period is five years.

Capital Murder (Section 569.035 RSMo.). The minimum term is 50 years.

Sex offenses. Offenders imprisoned for sex offenses shall complete the Missouri Sex Offender Program before release to parole (Section 589.040 RSMo.).

Unlawful Use of a Weapon (Section 558.016 RSMo.). Prior offenders shall serve at least ten years. Persistent offenders are not eligible for probation, parole or conditional release (Section 571.030 RSMo.).

Prior or Persistent Domestic Violence Offender (Section 565.0690 RSMo.) shall serve a minimum of six months before probation or parole.

High School Diploma/GED. The Board shall not order a parole unless the offender has obtained a high school diploma or its equivalent unless the offender has made a good faith effort. (Section 217.690 RSMo.).

5.8 Non-Parole Offenses

Murder First Degree (Section 565.020 RSMo.), **Persistent Sexual Offender** (Section 558.018 RSMo.), **Tampering with Victim/ Witness** (Section 575.270 RSMo.), **Drug Trafficking Offenses** (Sections 195.222, 195.291, 195.292, 195.295, 195.296 RSMo.)

5.9 Dangerous Felonies.

The list of offenses defined as dangerous felonies on June 27, 2003 are:

Forcible Rape, Forcible Sodomy, Robbery 1st, Murder 2nd, Kidnapping, Arson 1st, Assault 1st, Attempted Forcible Rape with physical injury, Attempted Forcible Sodomy with physical injury, Assault of a Law Officer 1st, Domestic Assault 1st, Elder Abuse 1st, Statutory Rape when the victim was less than 12, Statutory Sodomy when the victim was less than 12 and Abuse of a Child if the offense results in the death of the child.

5.10 Alternative Sentences

The expression “SHK/TRT” in the sentencing grids means any shock or treatment, 120-day, 180-day or long-term drug program as specified in statute (Sections 559.115, 217.362, 217.364, 217.378 RSMo.).

The expression “CSS” means Community Structured Supervision. The community sanctions and available programs are listed in Section 7, page 41.

5.11 Eligibility for shock or treatment programs

Excluded are persons who have been convicted of murder in the second degree pursuant to Section 565.021 RSMo; forcible rape pursuant to Section 566.030 RSMo; forcible sodomy pursuant to Section 566.060 RSMo; statutory rape in the first degree pursuant to Section 566.032 RSMo; statutory sodomy in the first degree pursuant to Section 566.062 RSMo; child molestation in the first degree pursuant to Section 566.067 RSMo, when classified as a class B felony; abuse of a child pursuant to Section 568.060 RSMo, when classified as a class A felony; an offender who has been found to be a predatory sexual offender pursuant to Section 558.018 RSMo; or any offense in which there exists a statutory prohibition against either probation or parole.

If the recommended sentence is an institutional shock or treatment program and the offender is ineligible or the offender has already been placed in a similar program within the last three years, then the recommended sentence shall be either a longer or a more intensive treatment program or a prison sentence. The recommended term sentence will normally be the minimum authorized sentence.

5.12 Definitions of terms used in the Recommended Sentences

1998 Recommended Prison Sentence. The average prison sentence of the 1998 recommended sentences. Because the 1998 recommended sentences were shown as ranges the average sentence is taken at the mid-point of the range.

CSS. A community structured sentence that indicates a higher level of supervision than probation. The supervision can include a requirement to complete either a substance abuse or other rehabilitative program. The range and availability of community structured sentences are described in Section 7, page 41.

Felony Class. The felony class as defined in statute. Unclassified felony offenses are separately listed in the recommended sentences. Convictions of the attempt, accessory or conspiracy (inchoate offenses) are made at one felony class lower than the commitment of the offenses (Chapter 564). Recommended sentences are computed for inchoate offenses.

Mitigating, Presumptive and Aggravating. An indicator of whether special conditions were present in the commission of the offense.

Offense Group. Five groups of offenses that have similar sentencing.

Offense Severity. The splitting of offense groups into one of the three levels to reflect the severity of sentencing practice. Not all felony class and offense groups require three levels of offense severity.

Offender Risk. A quantitative assessment of the risk of a person committing further crimes or violating the conditions of supervision. It is based upon a validated assessment of risk by the Board of Probation and Parole and it includes both prior criminal history and other behavioral and demographic factors. The risk score is from Excellent, with the lowest level of risk, to Poor, with the highest level of risk, with five levels of risk.

Percent Prison Disposition. The percent of convictions supervised by the Department of Corrections that received a prison sentence. Offenders who received probation or were sentenced under the 120-day or long-term drug statutes are not counted as prison sentences.

Prison Sentence. The average sentence of those persons who received a prison sentence. It does not include the prison sentence when the prison sentence was suspended or when the offender was sentenced under Sections 559.115 or 217.262 RSMo.

SHK/TRT. A disposition that requires a short prison stay under the 120-day or long-term drug statutes. If the offender is successful the offender is released to probation under court jurisdiction and the offender will be supervised in a community-structured program when released to probation.

5.13 How to Use the Recommended Sentences Matrices

Example 1

A person is convicted of Burglary 2nd. The sentence assessment report contains the following information about the recommended sentence:

Offender Risk. The risk assessment lists the scoring for each of the risk variables and indicates that the offender risk is **Above Average**.

Burglary 2nd is a Class C, non-violent offense that has been given a level I (most severe) of offense risk.

From the circumstances of the offense the court determines that there were no mitigating or aggravating conditions.

The recommended sentence is a community-structured sentence.

If the offender risk was **Poor**, then the recommended presumptive sentence would have been a prison sentence of 6 years. The Board of Probation and Parole Guideline prison term before parole is 36 months (50%) and the Board guideline range is from 32 months to 48 months (Appendix E, page 68).

Example 2

A person is convicted of Robbery 1st. The sentence assessment report contains the following information about the recommended sentence:

Offender Risk. The sentence assessment report indicates that the offender has an **Excellent** risk score.

Robbery 1st is a class A, violent, level II offense (medium severity).

If the conditions of the offense are presumptive, then the recommended sentence is 10 years.

If there were mitigating circumstances then the recommended sentence is a community-structured sentence.

If the offender is sentenced to prison, then the offender will serve 85% before becoming eligible for parole because Robbery 1st is a dangerous felony.

If the offender was convicted of attempted Robbery 1st, then the offense severity is class B, violent, level II and the presumptive recommended sentence for an **Excellent** risk is a community-structured sentence.

If there were aggravating circumstances then the recommended sentence would be shock or 120-day treatment.

If the offender risk was **Above Average** and the offender was convicted of attempted Robbery 1st, the recommended sentence would be 6 years. Because the offender would not be sentenced as a dangerous felon, the Board of Probation and Parole guideline prison term would be 29 months (40%) with a range from 25 months to 32 months.

If an offender has a minimum mandatory prison term then the guideline term would reflect that statutory requirement if the prison term was longer than the guideline term.

Note:

If an offense is not listed in the level of offense severity in the recommended sentences the severity level will be level II.

6. RECOMMENDED SENTENCES

Violent Offenses

Felony Class		Offender Risk				
		Excellent	Above Average	Average	Below Average	Poor
<i>Data FY03</i>						
Class A	<i>Percent Prison Disposition</i>	77.5%	94.4%	95.7%	95.7%	95.7%
	<i>Ave. Prison Sentence</i>	19.1	19.1	20.8	22.4	22.4
	<i>1998 Recommended Prison Sentence</i>	13.0	15.0	17.0	19.0	19.0

Aggravating Factors

Serious Aggravating Factors

- The offender's conduct was especially heinous, atrocious or cruel.
- The defendant knowingly created a great risk of death or serious physical injury to more than one person.
- The defendant used a dangerous or deadly weapon during the commission of the offense or during the arrest and has not been convicted of an offense that includes the use of a dangerous or deadly weapon.
- Serious aggravating factors shall not be offset by mitigating factors

Other Aggravating Factors

- The defendant was armed with a dangerous or deadly weapon during the commission of the offense or during the arrest and has not been convicted of an offense that includes the possession of a dangerous or deadly weapon.
- The defendant caused severe financial loss to the victim of the offense. There has been loss of business, employment or serious financial loss when the value of the loss is not included in the offense for which the defendant has been convicted.
- The defendant made, or expected to make, a substantial financial gain from the commission of the offense.
- The defendant caused severe physical or emotional trauma to the victim of the offense. The victim has required medical or mental health intervention and the impact of the trauma is not included in the offense for which the defendant has been convicted.
- Any other aggravating factors reasonably related to the purposes of sentencing, as specified by the court or by the sentence assessment report

Mitigating Factors

- The defendant has made or is making restitution to the victim.
- For offenses related to drug or alcohol dependency the offender has agreed to enter or has entered a drug or alcohol treatment program and there is a plan for continuing relapse prevention. Not to apply if the sentence involves placement in a drug or alcohol treatment program.
- The defendant used caution to avoid risk or injury to others and caused no injury, financial loss or trauma to the victim. Not to apply when the offender has been convicted of the attempt of the offense.
- The defendant has cooperated with law enforcement.
- Any other mitigating factors reasonably related to the purposes of sentencing, as specified by the court or by the sentence assessment report.

Aggravating Factors

Serious Aggravating Factors

- The offender's conduct was especially heinous, atrocious or cruel.
- The defendant knowingly created a great risk of death or serious physical injury to more than one person.
- The defendant used a dangerous or deadly weapon during the commission of the offense or during the arrest and has not been convicted of an offense that includes the use of a dangerous or deadly weapon.
- The offender has a prior felony conviction under Chapter 566 and the statute of the offense does not include the prior conviction.
- Serious aggravating factors shall not be offset by mitigating factors.

Other Aggravating Factors

- The defendant was armed with a dangerous or deadly weapon during the commission of the offense or during the arrest and has not been convicted of an offense that includes the possession of a dangerous or deadly weapon.
- The defendant caused severe financial loss to the victim of the offense. There has been loss of business, employment or serious financial when the value of the loss is not included in the offense for which the defendant has been convicted.
- The defendant caused severe physical or emotional trauma to the victim of the offense. The victim has required medical or mental health intervention and the impact of the trauma is not included in the offense for which the defendant has been convicted.
- Any other aggravating factors reasonably related to the purposes of sentencing, as specified by the court or by the sentence assessment report.

Mitigating Factors

- The defendant has made or is making restitution to the victim.
- For offenses related to drug or alcohol dependency the offender has agreed to enter or has entered a drug or alcohol treatment program and there is a plan for continuing relapse prevention. Not to apply if the sentence involves placement in a drug or alcohol treatment program.
- The defendant used caution to avoid risk or injury to others and caused no injury, financial loss or trauma to the victim. Not to apply when the offender has been convicted of the attempt of the offense.
- The defendant has cooperated with law enforcement.
- Any other mitigating factors reasonably related to the purposes of sentencing, as specified by the court or by the sentence assessment report

Aggravating Factors

- The defendant was armed with or used a dangerous or deadly weapon during the commission of the offense or during the arrest and has not been convicted of an offense that includes the possession of a dangerous or deadly weapon.
- The defendant has also been convicted of a violent offense (felony, misdemeanor or infraction) committed during the commission of the offense.
- The defendant made, or expected to make, a substantial financial gain from the commission of the offense or
- The defendant caused severe financial loss to the victim of the offense. There has been loss of business, employment or serious financial loss when the value of the loss is not included in the offense for which the defendant has been convicted.
- The defendant caused severe physical or emotional trauma to the victim of the offense. The victim has required medical or mental health intervention and the impact of the trauma is not included in the offense for which the defendant has been convicted.
- Any other aggravating factors reasonably related to the purposes of sentencing, as specified by the court or by the sentence assessment report.

Mitigating Factors

- The defendant has made or is making restitution to the victim.
- For offenses related to drug or alcohol dependency the offender has agreed to enter or has entered a drug or alcohol treatment program and there is a plan for continuing relapse prevention. Not to apply if the sentence involves placement in a drug or alcohol treatment program.
- The defendant used caution to avoid risk or injury to others and caused no injury, financial loss or trauma to the victim. Not to apply when the offender has been convicted of the attempt of the offense.
- The defendant has cooperated with law enforcement.
- Any other mitigating factors reasonably related to the purposes of sentencing, as specified by the court or by the sentence assessment report.

Aggravating Factors

- The defendant was armed with or used a dangerous or deadly weapon during the commission of the offense and has not been convicted of an offense that includes the possession of a dangerous or deadly weapon.
- The defendant has also been convicted of a violent offense (felony, misdemeanor or infraction) committed during the commission of the offense.
- The defendant made, or expected to make, a substantial financial gain from the commission of the offense.
- Had possession of a substantial amount of illegal drugs or controlled substances or precursor chemicals or possession of large-scale equipment for the manufacturing of illegal drugs.
- Any other aggravating factors reasonably related to the purposes of sentencing, as specified by the court or by the sentence assessment report.

Mitigating Factors

- For offenses related to drug or alcohol dependency the offender has agreed to enter or has entered a drug or alcohol treatment program and there is a plan for continuing relapse prevention. Not to apply if the sentence involves placement in a drug or alcohol treatment program.
- The defendant has cooperated with law enforcement.
- Any other mitigating factors reasonably related to the purposes of sentencing, as specified by the court or by the sentence assessment report.

Aggravating Factors

- The defendant possessed a dangerous or deadly weapon during the commission of the offense and has not been convicted of an offense that includes the possession of a dangerous or deadly weapon.
- The defendant has also been convicted of a violent offense (felony, misdemeanor or infraction) committed during the commission of the offense.
- The defendant has more than two prior convictions of the offense of driving while intoxicated third offense or has two or more convictions for driving while intoxicated third offense undischarged, including the current conviction.
- The defendant caused severe financial loss to the victim of the driving offense. There has been loss of business, employment or serious financial loss when the value of the loss is not included in the offense for which the defendant has been convicted.
- The defendant caused severe physical or emotional trauma to the victim of the offense. The victim has required medical or mental health intervention and the impact of the trauma is not included in the offense for which the defendant has been convicted.
- Any other aggravating factors reasonably related to the purposes of sentencing, as specified by the court or by the sentence assessment report.

Mitigating Factors

- The defendant has made or is making restitution to the victim.
- For offenses related to drug or alcohol dependency the offender has agreed to enter or has entered a drug or alcohol treatment program and there is a plan for continuing relapse prevention. Not to apply if the sentence involves placement in a drug or alcohol treatment program.
- The defendant used caution to avoid risk or injury to others and caused no injury, financial loss or trauma to the victim. Not to apply when the offender has been convicted of the attempt of the offense.
- The defendant has cooperated with law enforcement.
- Any other mitigating factors reasonably related to the purposes of sentencing, as specified by the court or by the sentence assessment report.

7. COMMUNITY STRUCTURED SENTENCING

The complete list of available community programs, outline of programs and eligibility requirements are contained in the document “Supervision Strategies and Treatment Alternatives” published by the Board of Probation and Parole.

Missouri Dept. of Corrections-Community Sentencing Alternatives

Program	Electronic Monitoring Program	Alt- Care Program	OPTS	TREND Program	Intensive Supervision Program	Local Resources
Description	A home based program providing enhanced control which is monitored 24 hours a day. The multi-phased program is usually 120 days in length. The court may place offenders on Electronic Monitoring at the time of sentencing or as a result of a violation during the period of probation. For offenders who have a need for more physical control.	An intensive out-patient treatment program for women who have demonstrated a need for substance abuse treatment and related support services. The program is multiphased and may last up to 2 years. Female offenders with substance abuse issues requiring intensive treatment. Pregnant women on medicaid or women with children will be given priority.	A supervision program specifically for the dual diagnosis felony offenders. The treatment team consists of a probation and parole officer and a case manager. Available to male and female felony offenders with a documented, mental health diagnosis and active substance use within the last 6 months.	TREND is a rehabilitative program designed to assist male offenders in developing long term solutions to their non-productive behaviors pertaining to drug use, employment, education, life skills and criminality. This program provides a structured environment at the Kansas City Community Center with intensive out-patient treatment for the first two phases of the program. A residential program specifically for probationers who have never been to the Missouri Department of Corrections (120day call back probationers are acceptable) TREND IS NOT AN INPATIENT DRUG TREATMENT PROGRAM. <i>Continued drug use in the TREND program will result in an unsuccessful discharge.</i>	Intensive supervision is a multiphased program with a higher level of contacts between with the offender, the officer, significant others and community resources. Offenders who need training, treatment, and increased behavior management.	Based on geographic location of an offender, local resources or programs may be utilized to address needs and risk. These resources may provide such services as group/individual/ family counseling, chemical dependency education/treatment, mental health diagnosis and/or intervention, and relapse prevention. Court may collaborate with local probation office to assess availability and appropriateness of local resource options.
Program Criteria	Offenders must have a viable, stable homeplan with a working telephone, prior to the referral to the Electronic Monitoring Program.	No serious physical or mental health problems.			Offenders who present a moderate to high risk and high casework needs.	Based on admission criteria established by the designated local resource/program
Availability	Statewide	Available in Jackson and St. Louis Counties	Kansas City and St. Louis	Kansas City	Statewide	Statewide, however, varies by geographical region
Judicial Process	The Court may order Electronic Monitoring. Placement may be determined by the probation officer based on offender's risk and needs.	The Court may order the Alt-Care Program. Placement may be determined by the probation officer based on offender's risk and needs.	The Court may order the OPTS Program. Placement may be determined by the probation officer based on offender's risk and needs.	The Court may order the TREND Program. Placement may be determined by the probation officer based on offender's risk and needs.	Placement is determined by the probation officer based on offender's risk and needs.	Placement and eligibility for a localized resource/program is determined by the probation officer. Court should contact the state probation office in their respective jurisdiction.

Missouri Dept. of Corrections-Institutional Sentencing Alternatives

Program Statute	Shock Incarceration Program 559.115 RSMo	Institutional Treatment Center 559.115 RSMo	Sex Offender Assessment Unit 559.115 RSMo	Regimented Discipline Program 217.378 RSMo	MO Post Conviction Drug Program 217.785 RSMo
Description	Program emphasis on general lifeskills, substance abuse education, vocational guidance and the development of an appropriate community based home plan.	Highly structured treatment program with emphasis on criminality, life skills, relapse prevention, substance abuse treatment and community home plan development.	An intensive assessment program for sex offenders that provides a complete psychological assessment to determine an offenders extent of psychopathology, risk to reoffend and amenability to treatment. Offers basic relapse prevention education.	Intense program for youth that emphasizes discipline, community responsibility through community restitution & service, work ethics, social skills and literacy.	Substance abuse program with two phases. Phase I is within the community and Phase II is an Institutional Treatment Center.
Program Criteria	<p>Male or female</p> <p>Offenders convicted of Murder II, Forcible or Statutory Rape, Forcible or Statutory Sodomy, Child Molestation I (B Felony), Abuse of a Child (A Felony), or a predatory sex offender cannot be sentenced pursuant to 559.115.</p> <p>Serious mental/physical health problems which prevent an offender from benefitting from this program may preclude eligibility.</p> <p>Offenders are housed in general population.</p> <p>No sex offenders</p>	<p>Male or female</p> <p>Must have an active substance problem and failed attempts in community treatment.</p> <p>Offenders convicted of Murder II, Forcible or Statutory Rape, Forcible or Statutory Sodomy, Child Molestation I (B Felony), Abuse of a Child (A Felony), or a predatory sex offender cannot be sentenced pursuant to 559.115.</p> <p>Male offenders with documented, diagnosed mental health and substance abuse issues should be referred to the Co-Occurring Disorders Program, pursuant to RSMo 559.115.</p> <p>No sex offenders</p>	<p>Males only</p> <p>No Alford Plea or pending appeal</p> <p>Offenders convicted of Murder II, Forcible or Statutory Rape, Forcible or Statutory Sodomy, Child Molestation I (B felony), Abuse of a Child (A Felony) or a predatory sex offender cannot be sentenced pursuant to 559.115.</p> <p>Serious mental or physical health problems which prevent an offender from benefitting from treatment may preclude eligibility.</p> <p>A PSI must be completed.</p>	<p>Males only, ages 17-25</p> <p>No pending felonies or prior felony convictions. Completed or active SIS probation is acceptable.</p> <p>Ineligible offenses are: Voluntary or Involuntary Manslaughter, Kidnapping, Robbery I, Arson I, Assault I Forcible Rape or Forcible Sodomy, Murder II, all Chapter 566 sex offenses. (Attempts are also ineligible.)</p> <p>Serious mental or physical health problems which prevent an offender from benefitting from this program may preclude eligibility.</p> <p>Termination from program forfeits probation release.</p>	<p>Male or female</p> <p>First time offender</p> <p>Offense is violation of RSMo 195 OR substance abuse was a precipitating factor in the commission of the offense</p> <p>Active addiction to controlled substance(s) (Alcohol only not eligible)</p> <p>Serious mental or physical health problems which prevent an offender from benefitting from treatment may preclude eligibility INTO PHASE II.</p> <p>No sex offenders in PHASE II.</p>
Judicial Process	Reservations Required Sentencing pursuant to RSMo 559.115 (no specific program recommendation needed)	Reservations Required Sentencing pursuant to RSMo 559.115 with recommendation for Institutional Treatment Center (ITC).	After PSI complete, sentencing pursuant to RSMo 559.115 with recommendation for Sex Offender Assessment Unit (SOAU).	Reservations Required Sentencing pursuant to RSMo 217.378 with recommendation for Regimented Discipline Program (RDP).	Order for SIS or SES probation with a special condition for Post-Conviction Treatment RSMo 217.785. MUST SPECIFY EITHER PHASE I OR PHASE II.
(9-1-01)					

In addition to supervision alternatives provided by the Missouri Department of Corrections, there may be local programs available in particular counties or court circuits.

8. PROPOSED SENTENCING ASSESSMENT REPORT DESCRIPTION

The Sentencing Assessment Report is intended to provide the Court with information regarding risk and related factors necessary in the determination of an appropriate sentencing decision. The report incorporates Sentencing Commission standards in conjunction with an identification of the offender's risk level, based on the nature and severity of the offense, prior criminal history, and other relevant factors. Information is provided in the report to assist the Court in determining the impact of the offense on the victim. The report also provides information to the Court regarding available department programs and resources necessary to support the court's sentencing decision and effectively manage the offender's presenting risk level and factors. In addition, the report provides the Court with parole release eligibility based on the sentence structure and Parole Board salient factor guidelines. This report helps the Department of Corrections with assessment, supervision, and management of the offender.

The probation and parole officer compiles the information for the Sentencing Assessment Report via a guided interview with the offender and an investigative process. The format for the report consists of the Introduction; a Risk Assessment Summary (present offense circumstances and severity, prior criminal history, victim impact, and an assets and liabilities assessment); the Offender Management Plan (community sentence strategy options, institutional program/service options, and re-entry/transitional planning considerations); and Conclusion (evaluation and recommendation based on Sentencing Commission standards, parole release eligibility and average time served for offenders with similar risk in the previous fiscal year).

The itemized offender risk score will also be listed.

The Sentencing Assessment Report provides valuable information to the Court for its consideration in the sentence decision-making process, in terms of identifying key offender risk indicators, incorporating Sentence Commission standards, and outlining available department resources and strategies necessary to support the Court's sentencing decision.

8.1 Sentencing Assessment Report Format

I. Offender Identifying Information

- Name, social security number, date of birth, gender, race
- Court information, including offense class

II. Risk Assessment Summary

A. Present Offense Information

- Very brief summary of the offense (nature & severity)
- Include aggravating/mitigating factors

B. Prior Criminal History

(see attached listing - to include prior and/or present supervision history, incarceration history, and other convictions)

C. Victim Impact

D. Offender Asset and Liability Assessment (including the Offender Risk Assessment)

- Scored Risk Assets: The variables that have decreased the risk score in the offender risk assessment.
- Scored Risk Liabilities: The variables that have increased the risk score in the offender risk assessment.
- Other Non Scored Risk Assets and Liabilities: residency, financial, social/behavioral, physical health family/significant others/associates, and military)

III. Offender Management Plan

Department resources to support the sentencing decision

- Community sentence strategy options (Court jurisdiction)
- Institutional program/service options (Board jurisdiction)
- Re-entry considerations (Transitional planning)

IV. Conclusion

Evaluation/recommendation

- Sentencing Commission standards (total scoring of the offender risk and risk scale, offense risk group, offense level of severity and mitigating/aggravating circumstances
- Sentence recommendation
- Parole release eligibility (salient factor scoring offense guideline matrix) and average percent of sentence served in the last fiscal year by offenders of similar risk.

V. Itemized listing of the offender risk components

8.2 Sentencing Assessment Report

I. Offender Identifying Information

Name: Smith, John Doe		SSN: XXX-XX-XXXX
Date of Birth: 01/01/1984	Gender: Male	Race: White
Offense: Burglary 2 nd Degree (attempt/conspiracy)		Class: C Felony (D felony)
Judge/Division: XXXXXX, XXXXX XX		Docket Number: CRXXX-XXXX
Defense Attorney: XXXXXX, XXXX		Prosecuting Attorney: XXXXXX, XXXX

II. Risk Assessment Summary

A. Present Offense Information

Offense Summary: Mr. Smith unlawfully entered a residence that was unoccupied at the time. He stole approximately \$2,000 worth of property from the residence including a VCR, television and a .12 gauge shotgun. All the items were recovered except for the shotgun.
Offense Aggravating Factors: None.
Offense Mitigating Factors: Offender ensured that no one was present in the residence before he entered.
Co-Defendants: None.

B. Prior Criminal History (Findings of guilt, prior incarcerations and revocations of probation and parole)

Prior DOC History (Supervision and Incarceration): One prior Misdemeanor probation in Pettis County for stealing (8/15/00-8/14/02). One violation report was filed for use of illicit drugs (Marijuana), during the supervision term. The supervision period was successfully completed.

C. Victim Impact (Victim address and contact information available through Prosecuting Attorney)

Victim Name(s): XXXXXX, XXXXX	Does Victim Want to Testify at Sentencing?: No
Victim Impact: Mr. XXXXXX wants the offender to pay the replacement cost for the .12 gauge shotgun. He places the value on this item at \$400. The victim reports no psychological, physical, or mental harm or injury from the offense.	

D. Offender Asset and Liability Assessment (including the Offender Risk Assessment)

Scoring Risk Assets: Mr. Smith has stable employment, no prior incarceration and no revocation of supervision
Scoring Risk Liabilities: Mr. Smith is a youthful offender with a current substance abuse problem (Alcohol), he has no high school degree or GED and he has one prior conviction. The offense is a high recidivist offense.
Non Risk Scoring Factors: Mr. Smith lives with his parents, has family support and good mental and physical health. His financial condition is poor. The weapon that was stolen was sold to buy illegal drugs (Marijuana). No history of assaultive behavior. The offender admits to a current substance abuse problem and while previously under supervision Mr. Smith successfully completed outpatient substance abuse counseling.

III. Offender Management Plan

Supervision Plan: The primary component of either an institutional or community placement is the need to reduce Mr. Smith's risk level by addressing his substance abuse problem through assessment and appropriate treatment placement. A secondary component is the need to restore the victim.
Available Strategies
Community: 1. Probation supervision with community treatment. 2. Probation supervision with electronic monitoring.
Institution: 1. Institution Treatment Center. 2. Incarceration. The offender will be managed on Enhanced Supervision

IV. Conclusion

Risk Score: -1 Offender Risk Level: Average Seriousness of Offense: Non Violent, Level I Offense Circumstances : Mitigating		
Sentencing Commission Standards: Community Structured Supervision		
Parole Release Standards: Min: 15% Standard: 20% Max: 25%. Ave. percent time served in FY03 with Average Risk: 33%		
Sentence Recommendation: Probation with 1) Intensive Supervision 2) Intensive Outpatient Substance Abuse Treatment 3) \$400 Restitution at the rate of \$100 per month 4) 20 hours Community Service within 60 days		
Officer Name: Johnston, J. Scott	Phone Number: 660/530-5530	Date: 1/27/2004

9. A STUDY OF SENTENCING DISPARITY

The study covers three topics: Sentencing in Missouri compared to other states, differences in sentencing by circuit courts and differences in sentencing between different racial groups.

9.1 Sentencing and Time Served in Missouri compared to Other States in the US.

The National Corrections Reporting Program (NCRP) published by the Bureau of Justice Statistics for 2000 indicated that offenders in Missouri serve about three months longer in prison than the national average; however, as a percent of sentence time served, Missouri is similar to the national average (43%). From DOC records and the NCRP report for 1993 and 2000, it is apparent that that time served has increased not only in Missouri but also in other states over the last ten years.

For many offenses, the average sentence in Missouri is higher than in other states. The average sentence reported for all states in the US was 65 months and 72 months in Missouri.

Average Sentence and Time Served to First Release (1993 and 2000)

Time Served to First Release (1993 and 2000)

Year	All State Prisons			Missouri		
	Max. Sentence	Prison Time Served	Percent Served	Max. Sentence	Prison Time Served	Percent Served
1993	66	21	31.8%	68	23	34.4%
2000	65	28	43.1%	72	31	43.3%

Source: NCRP reports (BJS) and DOC records

National Crime Reporting Data (FBI) and DOC records

9.2 Sentencing Differences Between Courts

When circuits are compared by sentence disposition or by average prison sentence there is a wide variation in sentencing practice. Using the sentence data compiled by the Department of Corrections for FY03, the 45 Missouri circuit courts have been ranked using three measures:

1. Prison sentences as a percentage of all dispositions

The range is from 43% for circuit 18 (Cooper and Pettis counties) down to 14% for circuit 41 (Macon and Shelby). The average percentage is 24%. St. Louis City (23%) and St. Louis County (21%) are slightly below the average and Jackson County (18%) is in the third quartile. Many of the large first class counties outside of the metropolitan areas are in the top quartile, see page 48.

2. Shock and Treatment Sentences as a percentage of Prison and Shock and Treatment Dispositions

The range is from 54% for circuit 35 (Dunklin and Stoddard) down to 17% for circuit 18 (Cooper and Pettis counties). The average percentage is 33%. Jackson County (39%) is in the second quartile and St. Louis City (27%) and St. Louis County (23%) are in the third quartile, see page 49.

3. Average Prison Sentences

St. Louis City has the highest average prison sentence (9.3 years) and Circuit 32 (Bollinger, Cape Girardeau and Perry) has the lowest average sentence (4.7 years), see page 50.

Although these rankings indicate that sentencing standards appear very different between courts, small numbers may add to variability and there may be differences in the level of crime, the type of crime and in the prior criminal history of the offender population that are not taken account of. For example, St. Louis City has a higher percentage of violent crime than other court circuits and that could explain the high average prison sentence. The high volume of crime in St. Louis may explain the low proportion of sentences that result in a prison sentence.

To account for some of the underlying factors, the data has been aggregated into three types of circuit court based upon the size of the resident population and sentencing has been compared for similar offense groups. This analysis is presented after the circuit court ranking charts.

Mean Percentage

Comparing sentencing when grouped into three categories based upon size of population (Metropolitan, Other First Class Counties and Rural) indicates that the greatest differences are between the metropolitan areas and the rest of the state. The metropolitan areas have the highest prison sentences but the lowest percentage of prison sentences. Rural counties have a slightly higher percentage of shock and treatment sentences than other first class counties. Between the St. Louis metro area and the Kansas City metro area there is a significant difference in the use of shock and treatment programs, (25% for St. Louis metro and 39% for Kansas City metro).

Sentencing Disposition in FY03
Metro, First Class and Rural Circuits

Circuits	Sentences	Percent Disposition				Average Prison Sentence (yrs)
		Probation	Shock/ Treatment	Prison	Percent of Sentence	
Metro area	8,685	68.3	10.2	21.5	100.0	8.1
Other First Class	7,210	59.3	12.4	28.3	100.0	5.9
Rural Counties	8,934	62.0	14.2	23.8	100.0	6.1
Total	24,829	63.4	12.3	24.3	100.0	6.7

The metropolitan area comprises St. Louis City, St. Louis County and Jackson County, the other first class counties include circuits 5th, 6th, 7th, 11th, 13th, 17th, 19th, 20th, 23rd, 26th, 29th, 31st, and 32nd. The rural circuits comprise the remainder.

Comparing the three areas for similar offenses reduces the disparity in prison sentences but the differences in disposition remain. The metro areas have the lowest percent of sentences receiving prison sentences. This is true for drugs, DWI and other non-violent offenses. For violent offenses there is a much greater similarity in sentencing. For Class A, B and C felony violent offenses there is very little difference in disposition or prison sentence between the metropolitan counties and the other counties. For Class D violent offenses there is a difference.

Drug Offenses

Circuits	Sentences	Percent Disposition				Average Prison Sentence (yrs)

9.2 Sentencing Disparity by Race

It is an accepted fact in the US that incarceration affects racial groups differently and in Missouri is no exception. The incarceration rate for Blacks is over five times that of Whites.

Missouri Incarceration Rates by Race

Race/Hispanic	Population 2000 Census	Incarcerated 31-Dec-03	Incarceration Rate per 100,000
Black	626,664	12,368	1,974
Hispanic	117,499	413	351
White	4,750,334	16,919	356
Other	100,714	166	165
Total	5,595,211	29,866	534

There are many factors that play an important part in explaining incarceration differences between different populations. Because the commission has had only access to sentencing data, the commission has only studied the impact of offense type and prior criminal history upon disparity between racial or ethnic groups in Missouri.

Using the sentencing data for FY03, the comparison between the four racial or ethnic groups indicates that Blacks have the highest average prison sentence (7.8 years) compared to an average of 6.7 years for all offenders. The aggregate data does not indicate significant differences in sentence disposition between Blacks and other racial or ethnic groups.

Sentencing Disposition in FY03
All Offenses

Race/ Hispanic	Sentences	Percent Disposition				Average Prison Sentence (yrs)
		Probation	Shock/ Treatment	Prison	Percent of Sentence	
Black	7,564	63.5	11.4	25.2	100.0	7.8
Hispanic	440	59.1	10.7	30.2	100.0	6.6
White	16,688	63.5	12.7	23.7	100.0	6.1
Other	136	65.4	8.8	25.7	100.0	6.7
Total	24,828	63.4	12.3	24.3	100.0	6.7

The disparity in average prison sentence between Blacks and other races is, in general, reduced when the comparison is made between similar offense groups. The exception is for violent offenses. For Class B, C and D violent felony offenses, Blacks have a higher average prison sentence and a higher percent of prison dispositions than other groups.

Drug Offenses

Race/ Hispanic	Sentences	Percent Disposition				Average Prison Sentence (yrs)
		Probation	Shock/ Treatment	Prison	Percent of Sentence	
Black	3,113	67.8	14.7	17.4	100.0	6.4

	Other Races	5	80.0	-	20.0	100.0	5.0
	Total	316	71.2	11.1	17.7	100.0	3.9

The sentencing analysis undertaken for the recommended sentences report indicated that the severity of sentencing is influenced by the level of prior criminal history. A necessary analysis, therefore, when measuring racial disparity is to measure any differences in prior criminal history between racial/ethnic groups. Blacks have the lowest percentage of offenders with a level I prior criminal history (68.5%). The average for Whites was 72.8%.

The next step is to measure the sentencing indicators for different levels of prior criminal history between the racial/ethnic groups. For the prison percent of sentences there is little difference between the racial/ethnic groups but there is a difference in the average length of prison sentence. Blacks have a longer prison sentence than other racial/ethnic groups for all levels of prior criminal history.

The final step in the analysis is to identify whether the differences in prison sentences is attributed to differences in the type offense. For offenders with level I prior criminal history, Blacks convicted of violent offenses have a higher percent receiving a prison sentence (48.8%), compared to 36.7% for Whites and the average sentence is 11.2 years, compared to 10.4 years for Whites. For the other offense groups (Drugs, DWI and other non-violent offenses), there are few differences between the racial/ethnic groups.

10. DEATH PENALTY SENTENCING

The study describes recent trends in prison admissions for murder, including sentences that require the death penalty and provides some measures that should identify any racial disparity in the application of capital punishment. The full data tables are included in the appendix F.

Admissions for Murder 1 and Murder 2

The number of offenders received for Murder 1 has been declining since FY96. In FY96, there were 70 admissions and in FY03 there were 30. Convictions for Murder 2, however, have remained steady at around 100 per year.

Murder Commitment Rates

Murder admissions expressed as a rate per 100,000 of the Missouri population have shown a modest drop since 1990. Admissions, calculated as an average of three years to minimize random fluctuations, have fallen from 3.44 in FY 1989-91 to 3.03 in FY2001-2003.

Murder Commitment Rates (per 100,000 pop.)
New admissions for murder

	1989-1991	2001-2003
Murder 1	0.72	0.66
Murder 2	2.72	2.36
Total	3.44	3.03

The application of the death penalty

The number of offenders sentenced to death has been low in recent years. In FY2001 through to FY2003, there were two per year and in FY2004 there have been none to date. A trend line from FY85 suggests that the application of the death penalty is diminishing.

Is there a racial disparity in the application of the death penalty?

Racial disparity might exist if one racial group is shown to be more likely to receive the death penalty than other racial groups. Because African-Americans have a higher commitment rate for Murder than other racial groups the comparison has been made between African Americans and Caucasians/Native Americans/Asians.

Murder Commitment Rates by Race 2001-2003

Rates per 100,000 population

African American	11.01
White/Native American/Asian	1.02

Two indicators have been calculated

- The percent of offenders convicted of Murder I that receive the death penalty
- The percent of offenders who are convicted of Murder that are convicted of Murder I.

The results indicate that there is a racial disparity in both the indicators but it is the other group (Whites, Native Americans, Asians) that has the highest rates.

For the period FY85-FY03, 6.7% of African Americans convicted of Murder I received the death penalty while 12.6% of other races received the death penalty.

Offenders Received for Murder I, By Race , FY85:FY04

	African Americans				Other Races			
	Death Penalty	Life	Total	Percent Capital	Death Penalty	Life	Total	Percent Capital
Total	29	407	436	6.7%	58	404	462	12.6%

For the period FY85-FY03 25.7%% of African Americans convicted of Murder where convicted of Murder 1 while 32.4% of other races were convicted of Murder 1.

Offenders Received with Murder By Race (FY1985:FY2004)

	African Americans				Other Races			
	Murder I	Murder II	Total	Percent Murder I	Murder I	Murder II	Total	Percent Murder I
Total	407	1,175	1,582	25.7%	404	842	1,246	32.4%

Is there a geographical disparity in death penalty cases?

Sentencing is considered by many to be more severe in rural areas than in the urban and metropolitan areas.

During the period FY85-FY04, St. Louis City and Jackson County have much lower percentages of death penalty sentencing compared to the rest of the state. Additionally, St. Louis City has a very low percent of African-Americans with a death penalty sentence (4%). Based upon the figures in the table below, the lower rate of death penalty cases among African-Americans compared to the other races statewide might be attributed to the sentencing practices in St. Louis City. St. Louis City is the only county in the table below that has a significant difference in death penalty rates between races.

Offenders Received for Murder I, By Race

	African Americans				Other Races			
	Death Penalty	Life	Total	Percent Capital	Death Penalty	Life	Total	Percent Capital
St. Louis City	8	198	206	4%	4	34	38	11%
Jackson County	6	82	88	7%	2	41	43	5%
St. Louis County	8	58	66	12%	4	33	37	11%
Greene	-	-	-	0%	3	10	13	23%
Other Counties	7	40	47	15%	45	118	273	16%
Total	29	378	407	7%	58	236	404	14%

There appears to be no significant difference between races in the percent of murder convictions receiving a Murder 1 conviction by geographical area. All selected counties have the White, Native American, Asian group receiving a higher percentage of Murder 1.

Offenders Received for Murder I and Murder 2, By Race

	African Americans				Other Races			
	Murder I	Murder II	Total	Percent Murder I	Murder I	Murder II	Total	Percent Murder I
St. Louis City	206	486	692	29.8%	38	77	115	33.0%
Jackson County	88	407	495	17.8%	43	126	169	25.4%
St. Louis County	66	157	223	29.6%	37	63	100	37.0%
Greene		5	5	0.0%	13	36	49	26.5%
Other Counties	47	120	167	28.1%	273	540	813	33.6%
Total	407	1,175	1,582	25.7%	404	842	1,246	32.4%

Conclusions

Examining the sentencing data from the Missouri Department of Corrections for admissions for murder from FY85-FY04 (to November 2003) it appears that the rate of murder convictions has fallen and the number of death penalty cases is now lower than it has been at any time since FY1985. Although African-Americans have a much higher commitment rate for murder, from the analysis undertaken the evidence suggests that African-Americans are not more likely to be sentenced either to the death penalty or to Murder 1. A geographical analysis indicates that St. Louis City has a significantly different ratio of death penalty to life sentencing between African-Americans and other races.

Because the statistical analysis did not include any severity of offense, prior criminal history or demographic factors the conclusions should be considered as subject to more detailed investigations.

Appendix A

Authorizing Statute: 558.019 RSMo.

6. (1) A sentencing advisory commission is hereby created to consist of eleven members. One member shall be appointed by the speaker of the house. One member shall be appointed by the president pro tem of the senate. One member shall be the director of the department of corrections. Six members shall be appointed by and serve at the pleasure of the governor from among the following: the public defender commission; private citizens; a private member of the Missouri Bar; the board of probation and parole; and a prosecutor. Two members shall be appointed by the supreme court, one from a metropolitan area and one from a rural area. All members shall be appointed to a four-year term. All members of the sentencing commission appointed prior to August 28, 1994, shall continue to serve on the sentencing advisory commission at the pleasure of the governor.

(2) The commission shall study sentencing practices in the circuit courts throughout the state for the purpose of determining whether and to what extent disparities exist among the various circuit courts with respect to the length of sentences imposed and the use of probation for offenders convicted of the same or similar crimes and with similar criminal histories. The commission shall also study and examine whether and to what extent sentencing disparity among economic and social classes exists in relation to the sentence of death and if so, the reasons therefor sentences are comparable to other states, if the length of the sentence is appropriate, and the rate of rehabilitation based on sentence. It shall compile statistics, examine cases, draw conclusions, and perform other duties relevant to the research and investigation of disparities in death penalty sentencing among economic and social classes.

(3) The commission shall establish a system of recommended sentences, within the statutory minimum and maximum sentences provided by law for each felony committed under the laws of this state. This system of recommended sentences shall be distributed to all sentencing courts within the state of Missouri. The recommended sentence for each crime shall take into account, but not be limited to, the following factors:

- (a) The nature and severity of each offense;
- (b) The record of prior offenses by the offender;
- (c) The data gathered by the commission showing the duration and nature of sentences imposed for each crime; and
- (d) The resources of the department of corrections and other authorities to carry out the punishments that are imposed.

(4) The commission shall study alternative sentences, prison work programs, work release, home-based incarceration, probation and parole options, and any other programs and report the feasibility of these options in Missouri.

- (5) The commission shall publish and distribute its recommendations on or before July 1, 2004. The commission shall study the implementation and use of the recommendations until July 1, 2005, and return a report to the governor, the Speaker of the House of Representatives, and the President Pro Tem of the Senate. Following the July 1, 2005, report, the commission shall revise the recommended sentences every two years.
- (6) The governor shall select a chairperson who shall call meetings of the commission as required or permitted pursuant to the purpose of the sentencing commission.
- (7) The members of the commission shall not receive compensation for their duties on the commission, but shall be reimbursed for actual and necessary expenses incurred in the performance of these duties and for which they are not reimbursed by reason of their other paid positions.
- (8) The circuit and associate circuit courts of this state, the office of the state courts administrator, the department of public safety, and the department of corrections shall cooperate with the commission by providing information or access to information needed by the commission. The office of the state courts administrator will provide needed staffing resources.
7. Courts shall retain discretion to lower or exceed the sentence recommended by the commission as otherwise allowable by law, and to order restorative justice methods, when applicable.
8. If the imposition or execution of a sentence is suspended, the court may order any or all of the following restorative justice methods, or any other method that the court finds just or appropriate:
- (1) Restitution to any victim for costs incurred as a result of the offender's actions;
 - (2) Offender treatment programs;
 - (3) Mandatory community service;
 - (4) Work release programs in local facilities; and
 - (5) Community-based residential and nonresidential programs.
9. The provisions of this section shall apply only to offenses occurring on or after August 28, 2003.

(L. 1986 H.B. 1098 § 1, A.L. 1988 H.B. 1340 & 1348, A.L. 1989 S.B. 215 & 58, A.L. 1990 H.B. 974, A.L. 1993 H.B. 562, A.L. 1994 S.B. 763, A.L. 1998 H.B. 1508 merged with S.B. 766, A.L. 2003 S.B. 5)

Appendix B

Proposed Risk Factors Based upon DOC Salient Factor Variables

Prior criminal history

- | | |
|--|----|
| 1. Prior convictions | |
| None | 1 |
| One | 0 |
| Two or more | -1 |
| 2. Prior incarcerations | |
| None | 0 |
| One or more | -1 |
| 3. Total prior incarceration time | |
| 0-5 years | 0 |
| Over 5 years | -1 |
| 4. Five years conviction or incarceration free | |
| Yes | 1 |
| No | 0 |
| 5. Revocations of probation or parole | |
| No | 0 |
| Yes | -1 |
| 6. Current offense is a recidivist related offense (Burglary, Auto theft and Tampering 1 st) | |
| No | 0 |
| Yes | -1 |

Other Risk Related Variables

- | | |
|--|----|
| 7. Age | |
| 45 and over | 2 |
| 35-44 | 1 |
| 22-34 | 0 |
| 18-21 | -1 |
| Under 18 | -2 |
| 8. Prior escape | |
| No | 0 |
| Yes | -1 |
| 9. Drug history (DOC substance abuse test and verified drug history) | |
| No | 1 |
| Yes | 0 |
| 10. Education attainment- DOC test and assessment | |
| GED or educational attainment 12 grade or better | 1 |
| Below 12th grade | 0 |
| 11. Vocational readiness (DOC assessment) | |
| Score 1-2 | 1 |
| Score 3 | 0 |
| Score 4-5 | -1 |

Add additional risk factor

- | | |
|---|----|
| 12. Employment status | |
| Full time for 3 months or more | 1 |
| Part time or full time for less than three months | 0 |
| Unemployed | -1 |

These proposed variables will be tested for statistical association during implementation. The final variable risk set may include new variables and some listed variables may be dropped or changed.

Offender Risk Assessment Scaling

The range of possible scores for the offender risk scale ranges from 8 to minus 10 and the scaling is shown in the table below.

Salient Factor Range

	Score
Best Possible Score	8
Worst Possible Score	-10
Range	18

Salient Factor Classification

Risk Class	Score
Excellent	4 to 8
Above Average	2 to 3
Average	-1 to 1
Below Average	-3 to -2
Poor	-10 to -4

Note:

This scaling of the salient factor score is based upon the risk scores of the prison population. The score will be re-validated for use in the sentencing recommendations.

Appendix C

The Proposed Offense Grouping to Measure Offense Severity

Violent A and B felonies (excluding sex assault)

Capital Murder, Murder 1 and 2, Manslaughter, Robbery 1, Robbery 2, Assault 1, Domestic Assault 1, NCIC Kidnapping, Arson 1, Armed Criminal Action and other A or B weapon offenses (31010, 31140, 31150, 31151, 31152, 31153, 31154, 31180, 31182, 31190, 31195, 31200), Treason, Elder Abuse 1 and 2 (36322, 36324), Escape using violence or weapons (28020, 28050, 28100, 28130), Causing a catastrophe (34070), Bus jacking (15040),

Violent C and D felonies:

Manslaughter, Assault 2, Domestic Assault 2, Assault 3 with deadly weapon, Arson 2 causing death, , NCIC offenses of Kidnapping (felonious restraint), Flight/Escape with use of weapons or force in escape (28055, 28060), Civil disorder (34045), Riot (34047), and Harassment because of discrimination (34055), Terrorist threats (34072, 34074, 34078), Ethnic intimidation (34110, 341120) and Aggravated stalking 1 and 2 (34210, 34220)

Drugs A and B felonies:

Drug trafficking 1 and 2, Drug manufacturing or distribution and any other A or B felony NCIC Dangerous Drug Offense,

Non-Violent A and B felonies:

Burglary 1

Drugs C and D felonies:

NCIC Dangerous Drugs

Non-Violent C and D felonies:

NCIC offenses of Burglary (not 1), Stealing, Arson (not 1 or 2 causing death), Forgery, Fraud, Gambling, Damage Property, Stolen Property, Obscenity, Family Offenses (excluding those listed in Violent C and D felonies), Obstructing Judicial Process, Weapon Offenses, Liquor Laws, Peace Disturbance, Election Laws, Health and Safety, Tax Revenue, Conservation, Motor Vehicles (other than DWI and BAC), Public Order Crimes, (with the listed exceptions in Violent C and D felonies).

Sex and Child Abuse A & B felonies

Forcible rape, Forcible sodomy, Statutory rape, Statutory sodomy, Sexual assault, Child molestation 1, Abandonment of child 1 and Sexual exploitation.

Sex and Child Abuse C & D felonies

Child molestation 2, Sexual misconduct, Incest, Abandonment of child 2, Abuse of a child, Endangering the welfare of a child and Child enticement, Child in sexual performance, Trafficking in children

DWI

Vehicles: 47410-47470, watercraft 54307-54310. Includes BAC.

Appendix D

A Comparison of Average Sentencing in FY 2003 compared to the 1998 Recommended Sentences

The analysis was based on all new felony sentencing received by the Department of Corrections in FY 2003 either for probation or for incarceration. The average recommended sentences are the midpoints of the sentence ranges in the User Manual.

Overall, the average prison sentence was 6.7 years while the average recommended sentence was 5.2 years. For serious Class A and Class B violent offenses, the recommended sentence was similar to the actual sentence. For most C and D felonies, the recommended sentence was less than the actual sentence. For all felony classes, the percent prison disposition is higher for violent, sex and child abuse offenses than for the other non-violent offenses.

Comparison of Actual and Recommended Sentencing for FY 2003

Offense Type	FY03 Sentences	FY03 Prison Sentences	Percent Prison Disposition	Average Sentence (yrs.)	Recomm. Sentence (yrs.)
<i>Class A</i>					
Violent	484	409	84.5%	19.5	18.9
Sex & Child Abuse	213	185	86.9%	15.5	13.1
Drugs	305	77	25.2%	13.1	12.9
Total	1,002	671	67.0%	17.7	16.6
<i>Class B</i>					
Violent	670	414	61.8%	9.2	9.2

All Sentences	24,829	6,030	24.3%	6.7	5.2

Appendix E

The Board of Probation and Parole Guideline Matrices showing the guideline prison time in months

Notes:

A separate Drug Offenses Guideline Matrix will be developed by the Board of Probation and Parole during implementation. Drug offenses are currently included in non-violent offenses.

Min. is the minimum of the guideline range and Max. is the maximum of the guideline range. For offenders with a Poor risk (the highest risk) the maximum of the range is the conditional release date. For sentences under 10 years the conditional release date is two-thirds of the sentence. For sentences from 10 to 15 years the conditional release date is three years before sentence completion and for sentences over 15 years the conditional release date is five years before sentence completion.
